Canto

Robust Elegance

Designed and built in New Zealand, Canto seamlessly blends minimalist aesthetics with cutting-edge functionality, making it the perfect lighting solution for diverse settings, from residential pathways and gardens to commercial spaces and urban landscapes.

Canto's adaptability shines through its selection of optics, wattages, colour temperatures, and control options, ensuring a versatile solution. With up to 20W power and 2400lm output, Canto provides ample illumination while maintaining energy efficiency.

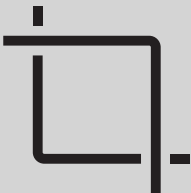

Manufactured from steel, Canto is built to last. Its advanced corrosion-resistant duplex coating ensures it withstands harsh conditions. Backed by a ten-year warranty, local production ensures efficient supply and minimizes carbon footprint, positioning Canto as a shining example of resilient, sustainable illumination.

Canto. Classic Bollard, Modern Brilliance

designed
